Month 4: How Porn Hurts

Role Play #2

Scenario

A classmate says, "My parents don't care what I look at on the internet. Plus, they say pornography is instructional and can help relationships."

Response

Talking Points: Frequent exposure to porn is associated with greater risk of developing a negative body image, especially for women. Adult exposure to porn is connected with rating one's partner as less attractive. The claim that porn is helpful in instructing viewers on sexual pleasure – porn is generally inaccurate and likely to lead to low-quality sex, as well as one-dimensional, likely unsatisfying sex, for males.
