

Parents retain the right to choose what is best for their children, especially when it comes to health decisions in education.

The state of Utah recognizes that parents have the “right, obligation, responsibility, and authority to raise, manage, train, educate, provide and care for, and reasonably discipline their children”

(Utah Code § 62A-4a-201) and “supports parents through a responsive educational system that guarantees local school communities autonomy, flexibility, and client choice” (Utah Code § 53E-2-301-3).

In the implementation of “all policies, programs, and responsibilities, the Utah Legislature, the state school board, local school boards, and charter school governing boards” are required to “respect, protect, and further the interests of parents in their children's public education”

(Utah Code § 53E-2-201-2(a))

LET US CHOOSE!

August 17, 2021

Salt Lake County Council
 2001 South State Street N2-200
 Salt Lake City, UT 84114-4575

We the following signees ask you to terminate any health directive that violates a parent’s right to choose what is best for his/her own child.

Governor Cox stated on August 2, 2021, "Every single kindergarten and 1st grade teacher I've talked to...will tell you there is an impact on the development of young children by wearing masks in schools. That their ability to read, their verbal and cognitive skills were slowed down by wearing masks."

Masking children is unprecedented and comes with tangible and measurable harms to the academic, emotional, and physical well-being of children. Children have an extremely low risk of contracting covid and an even lower risk of serious symptoms.

Dr. Marty Makary of Johns Hopkins University stated on August 9, 2021, “ What about the risk of Covid, which mask mandates are intended to ameliorate? The CDC [reports](#) that for the week of July 31 the rate of hospitalization with Covid for children 5 to 17 was 0.5 per 100,000, which would amount to roughly 250 patients. The CDC acknowledges that not all of these children were in the hospital *for* Covid: Viral testing at admission is routine, even for patients who have no Covid symptoms. Children who do develop Covid symptoms are at minimal risk of “long Covid,” according to a Lancet [study](#) published Aug. 3: ‘Almost all children had symptom resolution by 8 weeks, providing reassurance about long-term outcomes.’ ”

He also stated, "The possible psychological harm of widespread masking is an even greater worry. Facial expressions are integral to human connection, particularly for young children, who are only learning how to signal fear, confusion and happiness." [-Makary, M. & Meissner C. \(2021, August 8\). The Case Against Masks for Children. Wall Street Journal.](https://www.wsj.com/articles/masks-children-parenting-schools-mandates-covid-19-coronavirus-pandemic-biden-administration-cdc-11628432716?mod=searchresults_pos1&page=1)

America is founded on the Constitutional right to self govern and choose for ourselves how we care for our children.

While there is a clash of opinions on what is best for this upcoming school year, Utah code has already clearly laid out the hierarchy of authority regarding decisions that impact children.

(c)... The right of a fit, competent parent to raise the parent's child without undue government interference is a fundamental liberty interest that has long been protected by the laws and Constitution and is a fundamental public policy of this state.

(d)The state recognizes that:

(i)a parent has the right, obligation, responsibility, and authority to raise, manage, train, educate, provide and care for, and reasonably discipline the parent's children; and

(ii)the state's role is secondary and supportive to the primary role of a parent.

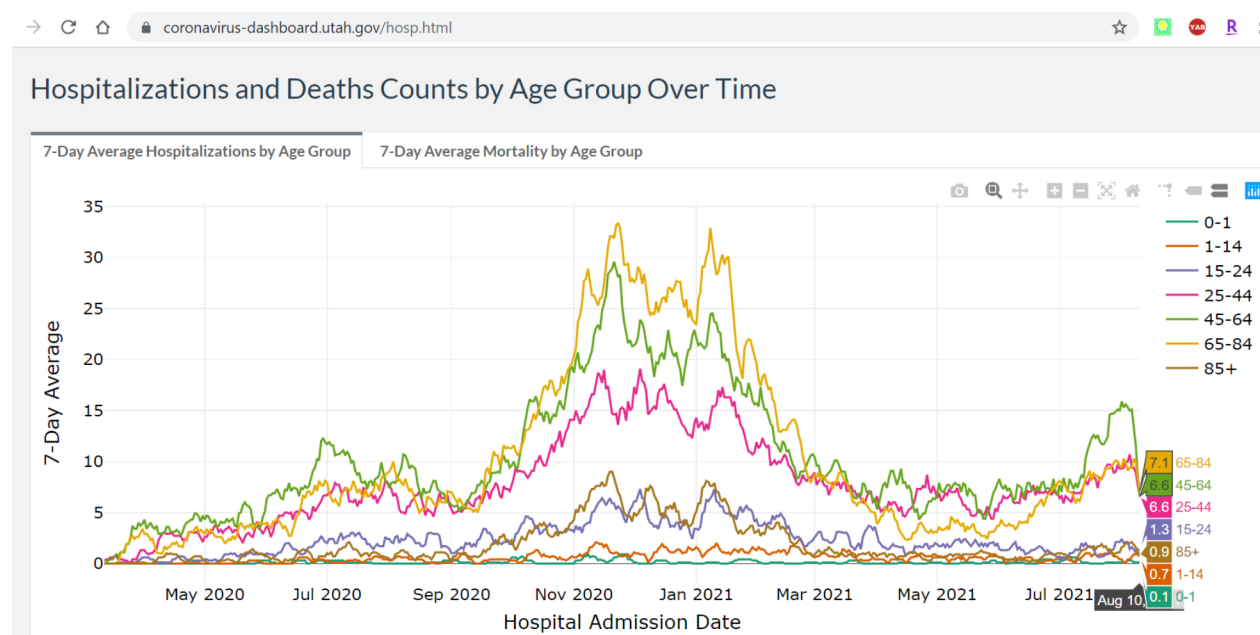

(e)It is the public policy of this state that parents retain the fundamental right and duty to exercise primary control over the care, supervision, upbringing, and education of their children."

[Utah Code Section 62A-4a-201 - Utah Legislature - Utah.gov](https://legislature.utah.gov/Code/CodeDetail.aspx?code=62A-4a-201)

Parents hold the state-recognized fundamental right, responsibility, and authority to make the final decision as to what the best course of action is for their children in all circumstances.

The government's role is to protect our rights, not take them. They should inform us of the facts and risks and then we should make our decisions based on those facts. We decide what risks we want to take, we do not force other people to reduce our risks against their will.

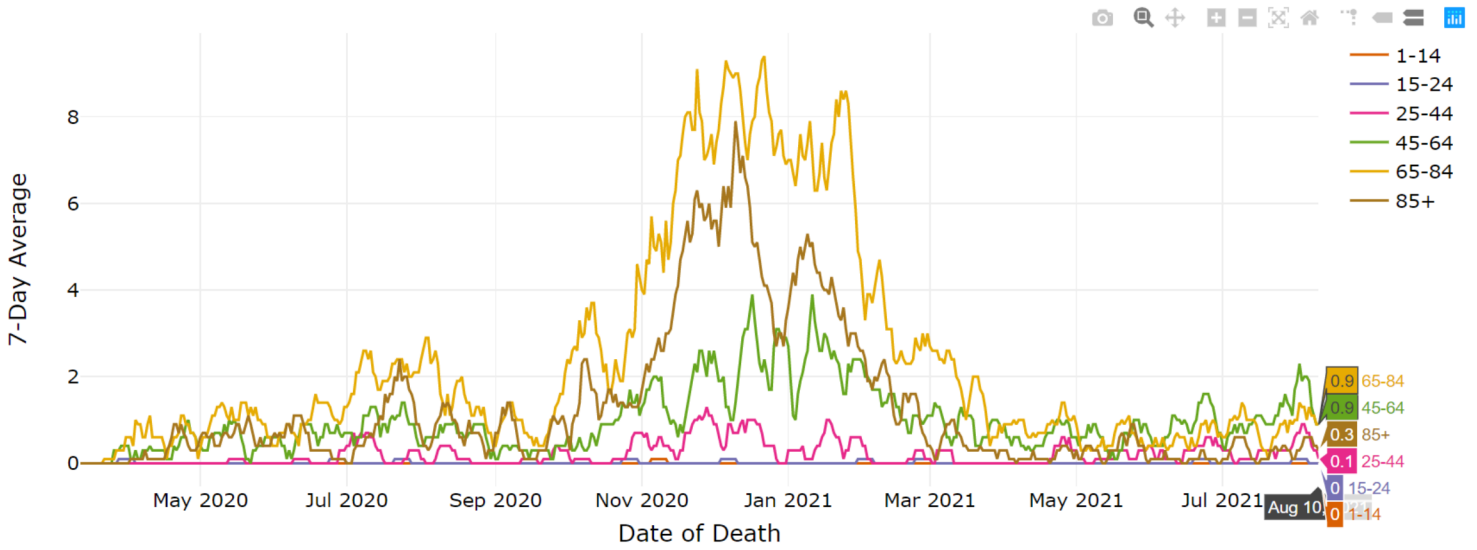

Please refer to the reports listed on <https://coronavirus-dashboard.utah.gov/hosp.html> accessed August 11th, 2021 at 1:00 AM.

Hospitalizations and Deaths Counts by Age Group Over Time

7-Day Average Hospitalizations by Age Group

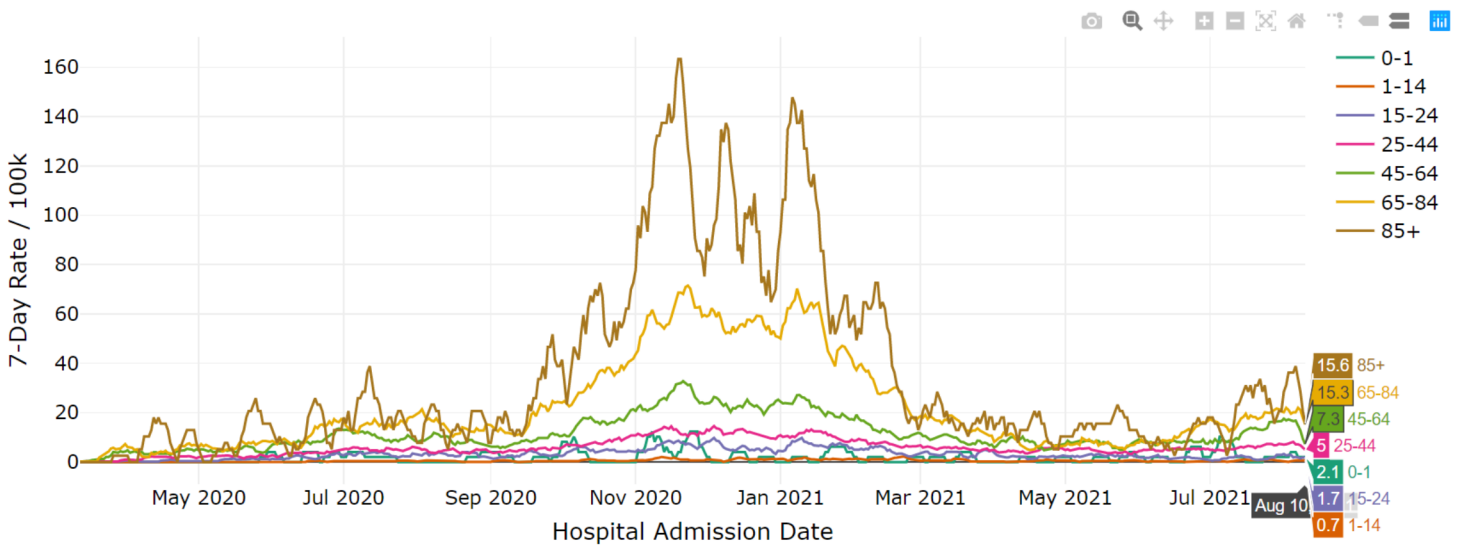

7-Day Average Mortality by Age Group

Hospitalizations and Deaths Rates by Age Group Over Time

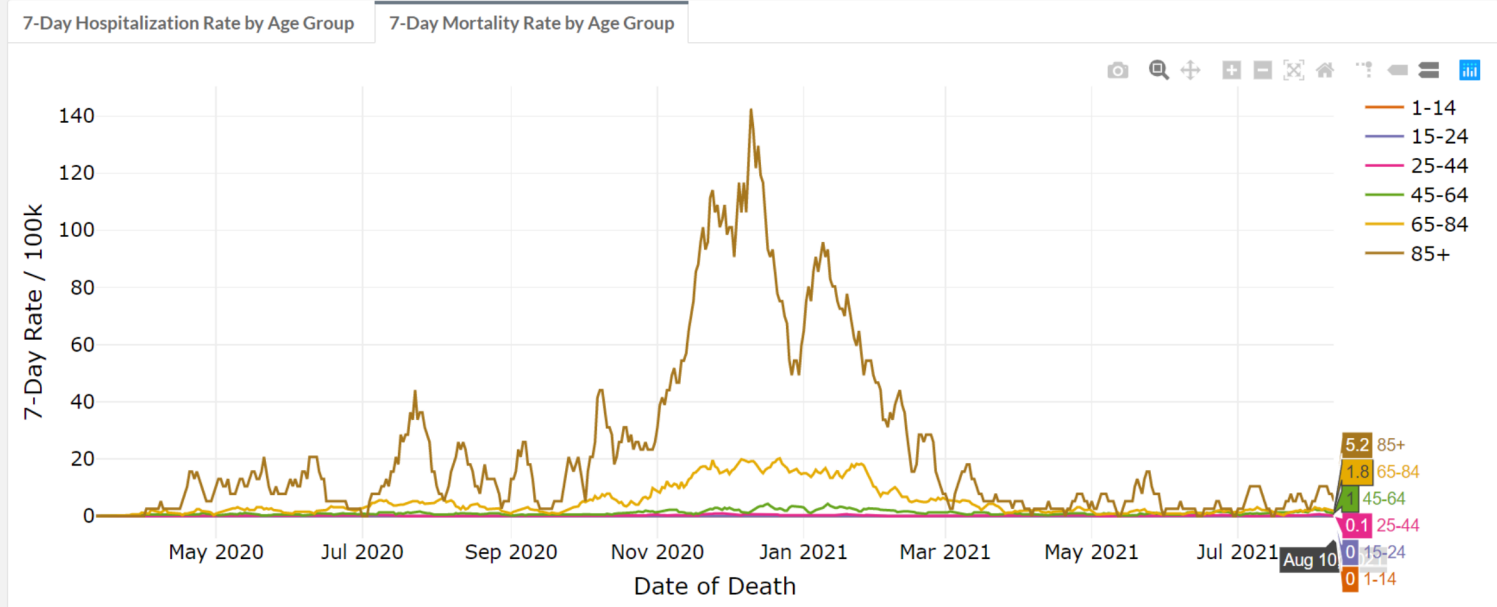

7-Day Hospitalization Rate by Age Group

7-Day Mortality Rate by Age Group

Data for this report were accessed on August 10, 2021 08:16 AM.

Hospitalizations and Deaths Rates by Age Group Over Time

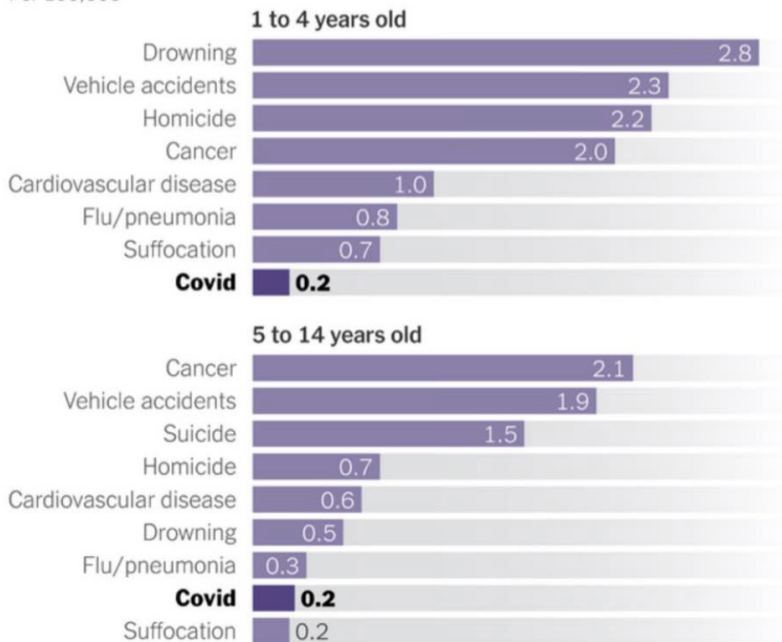

Data for this report were accessed on August 10, 2021 08:16 AM.

According to the data, as shown above, provided by the State of Utah, the risk to school aged children is negligible and does not warrant drastic mitigation. Every single school child cannot be expected to wear a mask for a perceived, unquantifiable threat when there is a very real threat to every single child academically, emotionally and physically in wearing a mask.

Annual Deaths Among Children in the United States

Per 100,000

Covid data is for the 52 weeks ending April 10, 2021. Other data is for 2018.

We, the signees below, stand firmly together that parents hold the state-recognized fundamental right, responsibility, and authority to make the final decision as to what the best course of action is for their children in all circumstances. This includes a parent's right to mask or not mask their children if they so choose. Allowing all parents to exercise primary stewardship over their own children is the only way to protect everyone's rights and best interests. We ask you to terminate any health directive that violates a parent's right to choose what is best for his/her own child.
